Experience

Looking for a first work experience. I'm a passionate and dedicated **MERN full-stack** web developer and self-taught C++ enthusiast.

My journey in programming began in high school, and ever since, I have been driven by a relentless curiosity to delve deeper into the vast world of computer science. With a solid foundation in the MERN stack, I have developed a keen ability to build robust, scalable, and user-friendly web applications. My expertise in C++ further complements my skill set, allowing me to tackle complex algorithms and performance-critical applications with confidence and precision. I thrive on challenges and am always eager to expand my knowledge, staying abreast of the latest technological advancements and industry best practices. My goal is to continue growing as a developer, contributing to innovative projects, and making a meaningful impact through my work.
